

**FORWARD-FACING Child Safety Seats should be used for kids at least 1 year old who weigh 20-40 lbs (if they can no longer ride rear-facing).**

**Place harness straps in reinforced harness slots that are at or slightly above shoulder level.**

**Keep harness straps snug and flat, with the chest clip at armpit level.**

**Place child safety seat in upright position, according to manufacturer's instructions.**

**Let's keep all kids safe while traveling in vehicles!**
